Company Overview

Haven6 Inc. provides advanced, hands-on cybersecurity services that help organizations identify, understand, and eliminate digital risk. Our focus areas include penetration testing, vulnerability management, digital forensics and incident response (DFIR), cloud security, and AI/ML risk review. Whether preventing a breach or responding to one, we deliver real-world testing, compliance-ready reporting, and actionable remediation support. Our team includes OSCP, CISSP, and GCIH certified experts who work directly with security teams, compliance officers, and executive stakeholders to deliver clarity and control over today's complex cyber threats. From SaaS startups to highly regulated enterprises, Haven6 is the trusted partner for organizations who take security seriously.

Core Competencies

- Penetration Testing: External/internal networks, web applications, APIs, mobile, IoT, wireless, cloud (AWS, Azure, GCP), SCADA Systems
 - Vulnerability Management: Continuous scanning, manual validation, prioritization, and remediation guidance
- Cloud Security: Pentesting, misconfiguration review, IAM audits, IaC scanning, and compliance alignment
- Assessment Services: Gap Analysis, Risk Assessment, Vendor Risk Assessment, Cloud Risk Assessment, Preparedness assessments (Tabletop Exercises), Vulnerability Assessment, and Threat Assessment
- Compliance Readiness: PCI-DSS v4.0, SOC 2, ISO 27001, HIPAA/HITRUST, NIST support and mapping
 - AI/ML Risk Assessment: Testing for adversarial ML, model tampering, and LLM security flaws

Certifications

- Offensive Security Certified Professional (OSCP)
- Certified Information Systems Security Professional (CISSP)
- GIAC Penetration Tester (GPEN)
- GIAC Cloud Penetration Tester (GCPN)
- CompTIA Security+, Network+, A+, PenTest+
- GIAC Certified Incident Handler (GCIH)
- AWS Certified Cloud Practitioner (CCP)
- Microsoft AZ-900, SC-900
- Certified Cloud Security Professional (CCSP)
- Certified Ethical Hacker (CEH)
- Burp Suite Certified Practitioner (Apprentice)

- eLearnSecurity Junior & Web App Penetration Tester (eJPT, eWPT)
- Systems Security Certified Practitioner (SSCP)
- Palo Alto PSE Certifications

Differentiators

- OSCP, CISSP, GCIH certified team with expertise across offensive security and incident response
- Human-led penetration testing with custom logic, real exploitation, and actionable guidance
- Full-spectrum vulnerability management with business context and remediation tracking
- Post-incident analysis, compliance-aligned reporting, and root cause investigation without 24/7 dependency
- Remote forensics and artifact collection tools that preserve evidence without on-site disruption
- Cloud security specialists for AWS, Azure, GCP, Kubernetes, and SaaS platform hardening
- AI/ML risk reviews addressing model evasion, prompt injection, and adversarial input manipulation
- Clear, compliance-ready documentation for PCI-DSS, ISO 27001, ISO 42001, and SOC 2

NAICS Codes

- 541519 – Other Computer Related Services
- 518210 – Computing Infrastructure, Data Processing, Web Hosting
- 541511 – Custom Computer Programming Services
- 541512 – Computer Systems Design Services
- 541513 – Computer Facilities Management Services
- 541611 – Administrative & General Management Consulting
- 541618 – Other Management Consulting Services
- 541690 – Other Scientific & Technical Consulting Services
- 541990 – All Other Professional, Scientific & Technical Services

Past Performance

Available upon request. Includes support to DoD, federal agencies, and private sector clients across financial, healthcare, tech, manufacturing, and supply chain industries.
